AEROSPACE PRODUCT CATALOG

2011

Flash Tape

Maxi Adhesive's pressure sensitive masking tapes for the aerospace industry are easy to apply, provide excellent chemical and temperature resistance and remove cleanly.

- FB-1 BLUE.....1 MIL PET
- FB-2 BLUE.....2 MIL PET
- FB-5 BLUE.....5 MIL PET
- stocked in 1" and 2" widths

Speed Tape

Aluminum foil tapes for specialty masking applications. Used for waterproofing, vapor barrier, chemical paint stripping, and air leakage applications.

- 12RAF-1.2 mil alum/rubber adhesive
- 12AAF-1.2 mil alum/acrylic adhesive
- 20RAF-2.0 mil alum/rubber adhesive
- 20AAF-2.0 mil alum/acrylic adhesive
- 30AAF-3.0 mil alum/acrylic adhesive
- 50AAF-5.0 mil alum/acrylic adhesive
- 20ASW-2.0 mil alum/no liner acrylic
- 30ASW-3.0 mil alum/no liner acrylic
- AFSKA-4.8 mil scrim alum/acrylic
- AFSKR-4.8 mil scrim alum/rubber
- Standard widths-2", 3", 4" and 6"

Carpet Tape

Heavy-duty, double coated cloth tape for carpet installation on passenger compartment floors. Easily re-aligns and resists curl. Removes without residue. Meets FAR 25.853@ and BMS 5-133E Type II, Class 1 and Class 2. PART NUMBER #108

Leading Edge Tape

Exterior surface protection film for aircraft leading and trailing edges. Protects aluminum skin from foreign object damage and rain erosion. Flexible, tough, and UV resistant PART NUMBER #8300

Plasma Spray

Used to protect surface areas during grit blasting and thermal spraying. Very abrasion and thermal resistant. Removes easily and cleanly without leaving a residue.

- Fiberglass w/ silicone.....436G
- Fiberglass w/ acrylic.....430A
- Fiberglass w/rubber.....420R
- Double-sided adhesive.....437GD
- Aluminum Foil /fiberglass.....2508

Available in all widths

Teflon Tapes

Excellent electrical, mechanical, and chemical properties. Used in electrical applications such as harness/coil wraps & separators, transformers, and as a primary insulation. Meets AA-59474 Type 1

- 2 mil Skived#445
- 5 mil Skived.....#115
- 10 mil Skived.....#115-10
- 3 mil Teflon coated glass cloth#1085
- 5 mil Teflon coated glass cloth#8505
- 10 mil Teflon coated glass cloth#8510

Other types available; data sheets available upon request.

F-4 Tape

F4 Tape was the name given by servicemen of the Navy, Air Force and Marine Corp., the high temperature high performance electrical tape was used extensively on the F-4 Phantom. Today this tape is known as self-fusing silicone rubber tape.

Available in 1" and 2" widths.

Bonds instantly when stretched and wrapped on any surface. Convenient tearable liner. Forms a water and air tight seal instantly.

Surface Protection Tapes

Heavy duty surface protection films for most metals and plastics. Used to prevent chipping, scratching, and abrasion. Squeak and rattle reduction. Insulation and sound dampening. "Wing Walk" protection.

- Protective Paper#2730A
- UV Resistant Sealing#5410
- Skid Resistant Tape.....#NS20
- Fineline Masking.....#3305
- Low Stretch Fineline#1776A
- PE Protective Tape.....#5560
- PU Protective Tape.....#8450
- Helicopter Tape.....#8300
- Pipe Wrap Tape.....#PWT

AEROSPACE 2011

product catalog

We provide a wide variety of adhesive coated substrates for a wide range of application needs. Our tapes are offered with silicone, acrylic, and rubber adhesive for applications requiring the chemical protection, high temperature resistance, and standard industrial requirements. In addition to our well rounded aviation and aerospace tape product line, we also have adhesive tape products for the electrical, energy, paper, plasma spraying, powder coating, and construction industries. Maxi Adhesive Products, Inc., offers the reassurance of over 30 years of experience in adhesive product industry. Please do not hesitate to contact us for any questions, information, or samples.
